Your Friendly Bookkeeper Says Goodbye

Saying good-bye is so very hard to do, but it is now time for me to retire and do all the things you do when you retire. I have loved working for Summerfield for the last 13 + years and getting to know so many of you; it will be hard to depart. I will miss all your friendly smiles and your willingness to help me when I was so very busy. I plan on retiring **August 31, 2022** so hopefully you will stop by to say good-bye before I leave.

Presidents Message

For everything, there is a season, and a time to every purpose under the heaven: Ecclesiastes 3:1-8. Also used in a song written by Pete Seeger in the late 1950s and first recorded in 1959. Of the many versions that have been recorded, I remember The Byrd's 1965 song the best. At the July 11 Annual Meeting, we elected our new SCA Board of Directors for 2022-23. The Board consists of President Tom Clancy; Vice President Sharon Hughes; Treasurer Carol Knutson; Director Penny Kellogg; Director Steve Blake; Director JJ Gattuccio; Director Dianne Phelps.

We are excited to welcome the new Board Members Steve Blake, JJ Gattuccio and Dianne Phelps. Their expertise, enthusiasm and knowledge will be a major contribution to achieving our goals.

We say goodbye to Sharon Strain, our outgoing President for the last 2 years, and 3 year Board Members Vice President Donovan Madden and Director Roger Johnson. Their diligence, expertise and knowledge have guided us through some transformative years: Having to find a replacement for our legendary Golf Course Superintendent of 44 years, Rick Sullivan, and finding an excellent one in Zach Palmer who worked with Rick for 15 years. Next came finding a replacement for Cari Lindsey, an exceptional Administrator for 13 years, and replacing her with Jennifer Stiffler, energetic and enthusiastic about the opportunity.

We will continue to carry on in their tradition and do our very best for Summerfield!

Enjoy our beautiful summer weather, some of the best in the nation and the many amenities that Summerfield has available: golf, swimming, tennis, pickleball or a nice walk through our lovely community.

Flag Day at the Estates

Summerfield Estates dialed up the patriotism on Flag Day, June 14, with the focus on Quilts of Valor given to 16 resident veterans, who received "quilt hugs" from the women who made the quilts. Volunteers in the nationwide organization have donated 313,000 quilts to veterans since its inception in 2003. Mayor Jason Snider also handed out award certificates to nine resident veterans who previously received Quilts of Valor.

A Marine Honor Guard posted the colors, and members of the West American Legion Riders, Patriot Guard Riders and Sunset Hog Riders roared up on their motorcycles and stood at attention during the posting of the colors, with one of them later giving Estates resident Sally Allenby a ride.

A band led by Summerfield resident and U.S. Army veteran Craig Kellogg, who served in the Vietnam War, entertained the crowd, which enjoyed a delicious barbecue and had the opportunity to purchase raffle tickets for wonderful prizes to support Quilts of Valor. Craig also received one of the Quilts of Valor.

Art Guild

The Art Guild has new works displayed on the Clubhouse Gallery Walls - and without a specific theme - you will enjoy a variety of mediums, including abstracts, mixed media, watercolors, colored pencils, oils, pastels and photography.

The subject matter is as varied as the mediums employed - whether you enjoy portraiture, wildlife, landscapes, a still life, or a vibrant abstract - there's something for everyone!

This display is a small preview of the works you can look forward to enjoying as the Summerfield Art Show returns! While we've missed holding an Art Show these past two years, the artists have still been working - so this Art Show is not to be missed.

The Summerfield Art Show is scheduled for Friday and **Saturday, September 23 and 24 from 10 AM - 4 PM.**

For Guild Members: Our next meeting is scheduled for **Monday, August 15, at 3 PM in the Art Room.** We'll be finalizing Art Show details, and we look forward to seeing you there.

Clubhouse

A WORD FROM THE CLUBHOUSE COMMITTEE

This committee works very hard to keep your Clubhouse a beautiful and pleasant place for you to enjoy. We have a whole new team of monitors on board to help you make your special events go smoothly as well as your guests feel welcome.

Clubs, Sub-Associations and Activity Groups are reminded that we do NOT have a janitorial service that cleans up after your event. There almost always is another activity coming into the room right behind you, so please, take a moment to make sure the room(s) are tidy, tables and chairs are put back, and the floor areas are clear of food and drink spills. There is a new paper towel holder in the Lakeview Room on the wall above the new cupboard counter for your convenience. Large floor dust mops and a small water mop are in the storage room behind the kitchen. Extra trash can liners are at the bottom of each can. Please remember all trash bags must be securely tied before placing them in the trash bins.

When we all work together and do our part, it keeps the job light. Thank you for doing your part.

Pool Talk

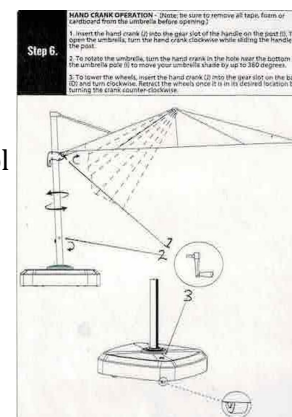

Did you hear about the couple who wanted to get married in a bathtub? They wanted a double ring ceremony...

Actually, our swimming pool gets a 'bathtub ring' when swimmers fail to rinse off their sweat, skin oils, and dirt with an adequate "cleansing" shower. Admittedly we do not provide soap. However, rubbing your skin under our nice warm shower water will do the same thing that our nice warm pool water will do after you've been in for 5-10 minutes. Because body oils, including sun tan oils, float they can drift onto the pool walls or into the skimmers where the sand filters slowly get clogged. We backwash the sand filters and clean the pool walls with detergent or Comet cleanser, which by the way is the same chemical as our Smart Shock stabilized chlorine product, but with grit added.

Thanks to all who helped diagnose and eventually repair the failed main 3-phase 240volt electrical supply to the pump house. The 45-year-old buried metal conduit corroded allowing the old 8-gauge aluminum wiring to short out. Our new above-ground conduit is visible along the top of the north cement retaining wall. It is possible a lightning strike initiated the damage, which included a melted 24-volt transformer for the west FOB gate, the 2-bulb LED light, and the Chemtrol automatic chemical dosing unit. Our new dosing unit, ordered in late February, to replace the aging but then still working Chemtrol, is back-ordered or stuck in shipping. In the meantime, we are dosing manually twice daily.

If you put an umbrella up please put it back down when you leave. Many times your Pool Committee has to put them down while taking an evening stroll. Although we don't mind doing this for safety against winds above 12mph which can tip one over even with its 200 lb base. Our four large sunshade Umbrellas operate as shown in the picture. Please try them out and use them for morning and afternoon shade. You may wish to save this page for future reference.

Disaster Preparedness

In case of a disaster of some form, such as the recent storms on the East and Gulf Coasts, are you prepared with reserve water, some food, a way to cook and heat your home, backup sanitation supplies and ways to help the neighbors if necessary? Utilities are still out in parts of the Eastern U.S. from those two storms. History experts tell us that we are overdue for a large earthquake in the Pacific NW - something like Level 9.0, in which case the water supply will most likely be down for weeks or more, and power will be out for a long time, including natural gas supplies, and emergency services such as Police, Fire and Medical support may be lost for days or weeks. The worst-case scenario is a solid four minutes of shaking with extensive damage

to all utility systems and tidal waves at the coast with maximum damage to roads and bridges. The PDX fuel site along the Willamette in NW Portland is built on fill land, and tanks are likely to rupture and sink – there goes all the fuel for cars, etc.

To cope with all this, one should be prepared with the following:

1. Reserve water supplies of 1 to 5 gallons per day per person, in a secure storage area. (Remember you have 40-plus gallons in the water heater) And a means to purify available tainted water if necessary.
2. Reserve food/meals for at least 2 weeks - maybe a month or more.
3. A means to cook and heat water for meals and washing, if desired: a Camp stove with Butane or gas, a small briquette roaster/barbeque, a fireplace and wood.
4. Back-up sanitation supplies such as a camp toilet and disposal bags and a means to bury the bags.
5. A "Go Bag" with important documents, medications, first-aid supplies, minimal change of clothes, cash and weather protection.
6. Knowledge/training on when and how to secure your water and natural gas utility systems.
7. Emergency power systems for medical or communication system needs.

There may be eventual emergency support from FEMA, but that could take days or weeks due to the limited road and rail access, so we will most likely be "on our own" for a spell. People must be prepared to survive on their own and help their neighbors if possible.

If you would like to learn more about preparedness and be part of the Preparedness Team, please join us and come to our monthly meeting at 3 PM in the Conference Room every third Tuesday of the month. We can use more members/helpers, and you can learn a world of information about survival and helping others.

There is also a ton of information on Preparedness at the SCA website, www.summerfield55.org, in the Committee section under Disaster Preparedness on how and what to do in an emergency.

A LITTLE GOLF BALL HISTORY: The legendary Scottish golfer Tom Morris, when he was 14, apprenticed at St. Andrews with the difficult task of making "Feathery" golf balls. Stuffing boiled chicken and goose feathers into a small leather cover took time. He was only able to make 4 or 5 a day. This ball in 1836 cost about 5 schillings, which was expensive for those days, and one of the reasons only the wealthy played golf. Converting 5 schillings into today's dollars makes the cost about \$36.50 each or about \$438.00 a dozen. Recently a Feathery ball made by Tom Morris was auctioned off for £8,000 or \$12,500. That would make a dozen of them, if available, \$150,000.00. Today, if you are interested in hot golf balls, try the Dixon Fire, at \$75.00 a dozen. It's kind of like the Tesla of golf balls, claiming to be eco-friendly. Who knew?
